1/Watergate continued to dominate the political arena with more than a dozen former presidential aides and campaign workers answering to criminal charges. President Richard M. Nixon refused to comply with subpoenas for White House tapes and instead provided edited transcripts to the House Judiciary Committee impeachment panel. 2/After repeatedly expounding his innocence of criminal activity, Nixon announced his resignation from the presidency on Aug. 8. Vice President Gerald R. Ford became president. 3/President Ford later granted Nixon a "full, free and absolute pardon" for all offenses the former president "committed or may have committed" while in office. 4/Ford takes a winter ski vacation in Colorado. 5/The new president announced a program of conditional amnesty for draft evaders. 6/Former New York Governor Nelson Rockefeller takes the vice presidential oath following lengthy confirmation hearings. 7/Knitted sandal socks appeared, making year-round sandal wearing practical. 8/San Francisco newspaper executive Randolph Hearst and his wife talk with newsmen about the fate of their daughter Patricia, 19. Believed to be a captive of the terrorist Symbionese Liberation Army organization, Miss Hearst is now being sought by the FBI for alleged participation in the robbery of a San Francisco bank. 9/The Democrats staged the first-ever mid-term convention in American political history in Kansas City. 10/Israelis protest the efforts of U. S. Secretary of State Henry Kissinger to arrange troop disengagements between Israel and its Arab neighbors. 11/Late in the year, stores and consumer groups attempt to curb the demand for sugar and effect a reversal in the upward trend of sugar prices. The increase affected hundreds of related products. 12/A two-man Soyuz spacecraft is launched by the Soviets in a warm-up for a joint U.S. Soviet space docking slated for summer of 1975. 13/Eleven women were ordained into the Episcopal priesthood in July. Three are shown celebrating the Holy Eucharist. 14/U.S. Ambassador Rodger P. Davies was killed and the U.S. flag burned when rioters overran the U.S. Embassy in Nicosia to protest U.S. failure to halt the Turkish invasion of Cyprus.

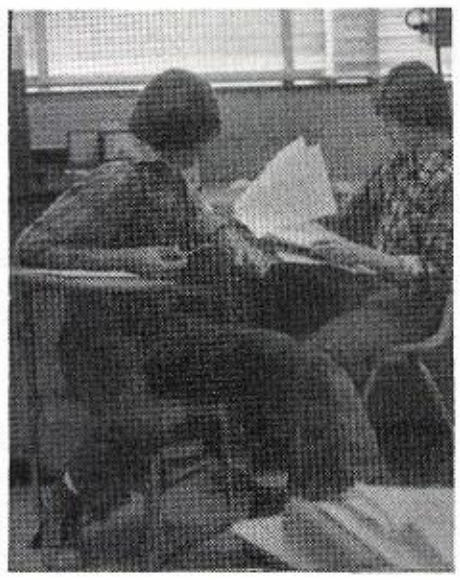
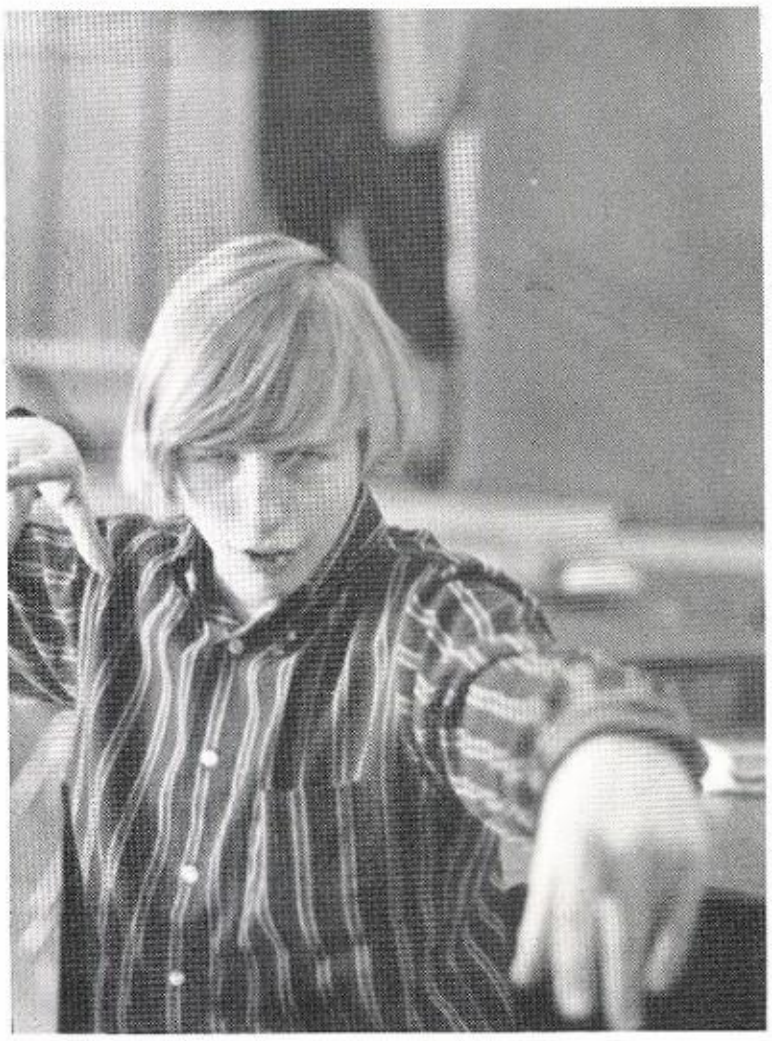
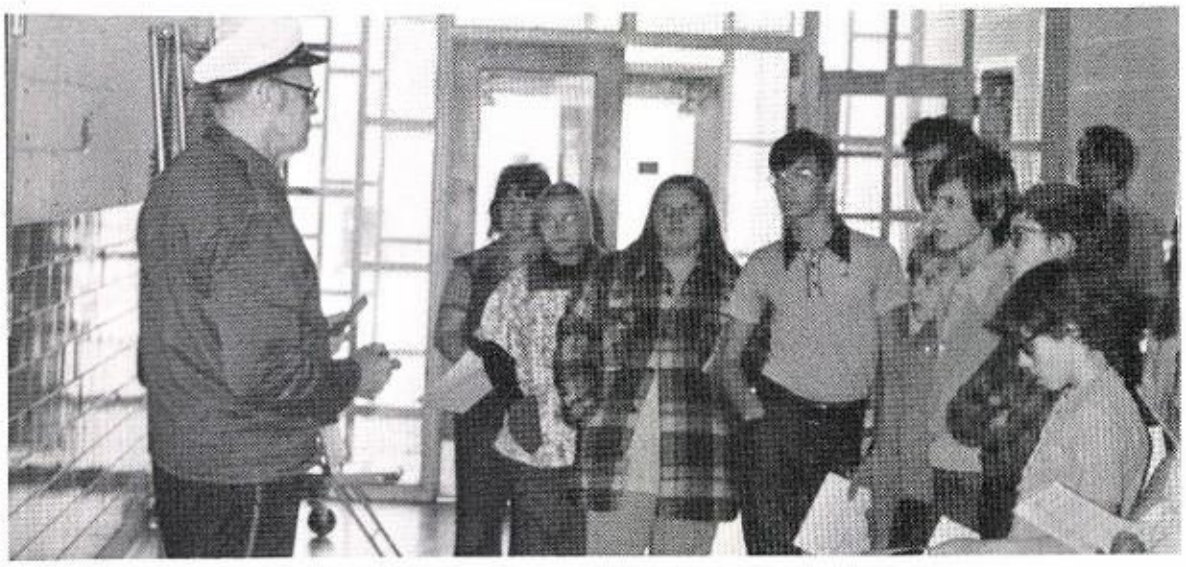
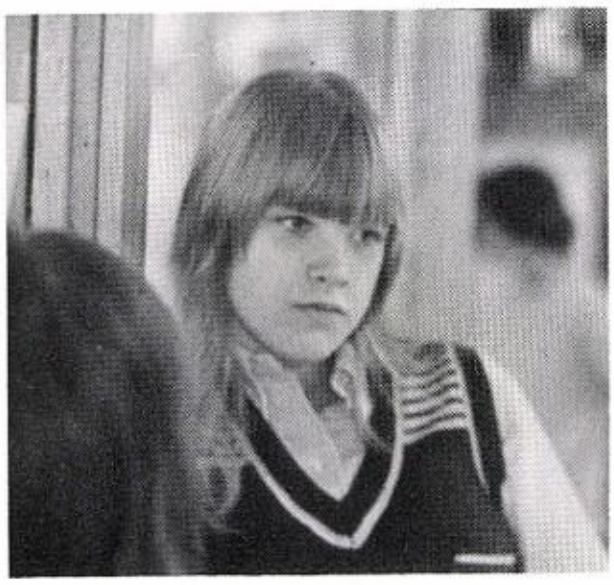
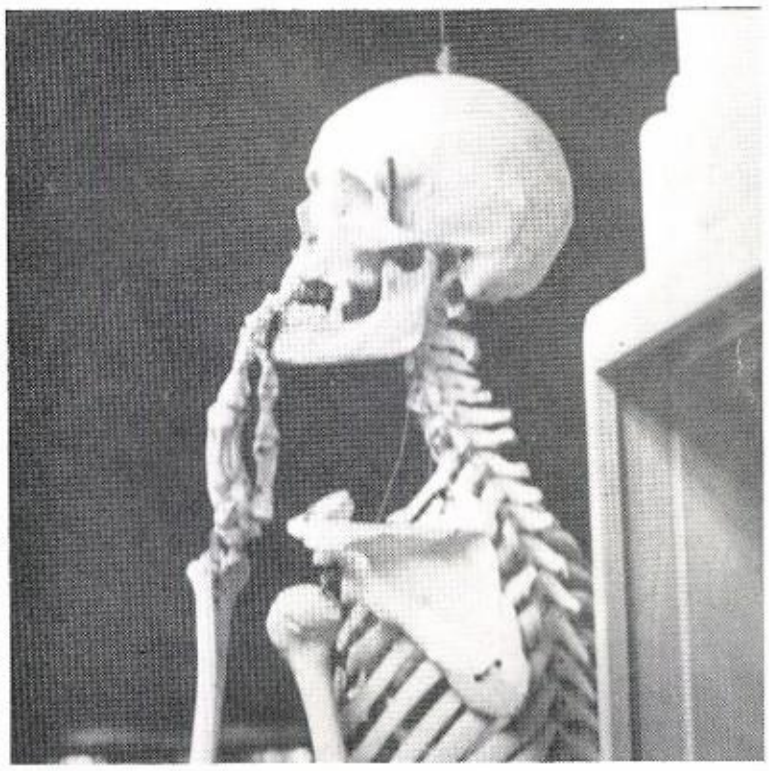
STUDENT LIFE AROUND EDDYVILLE HIGH SCHOOL





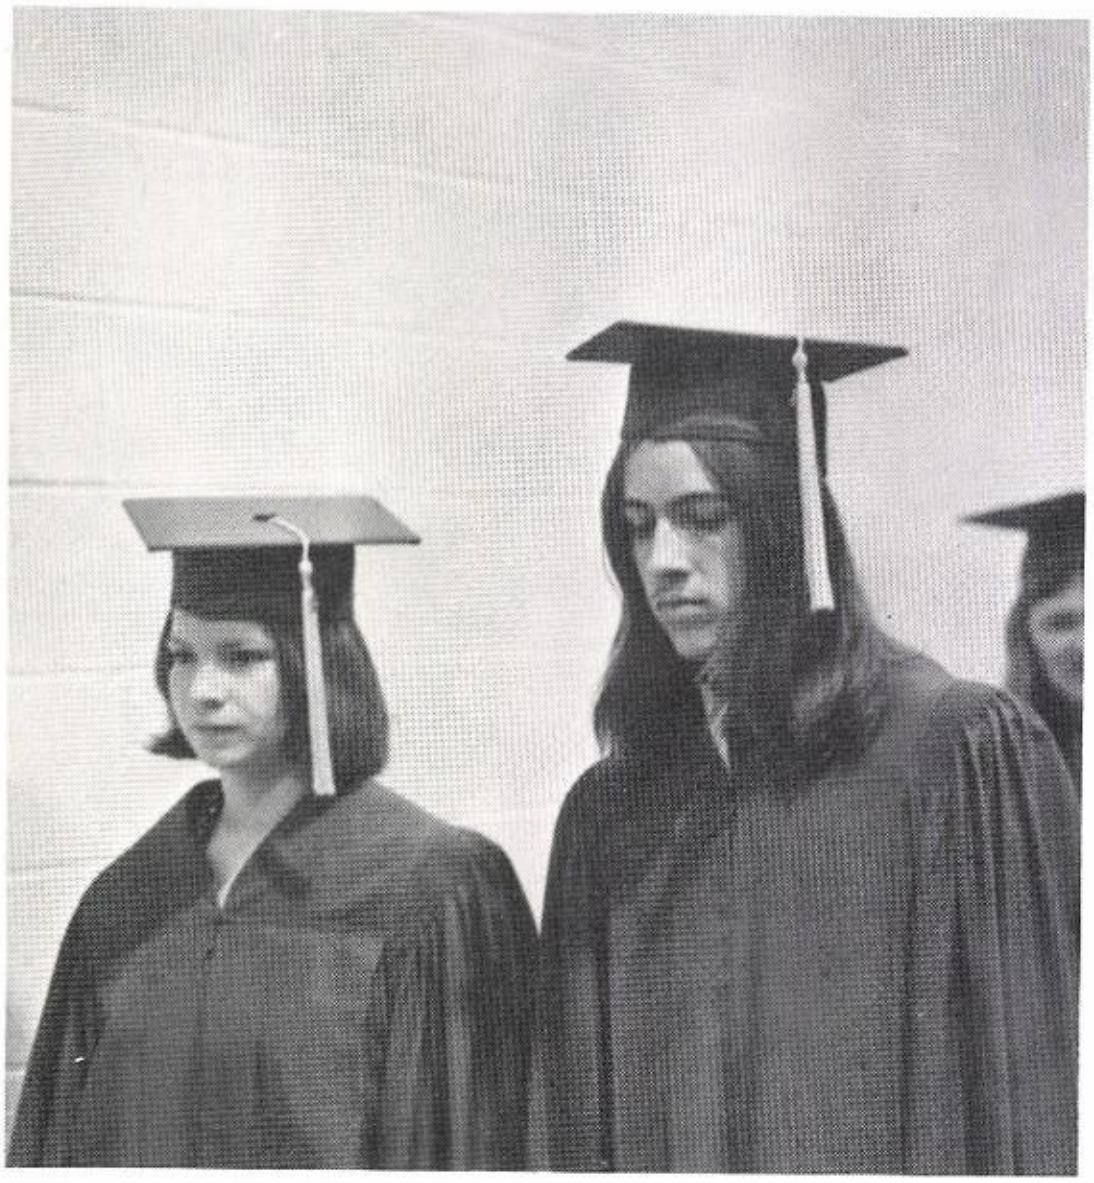


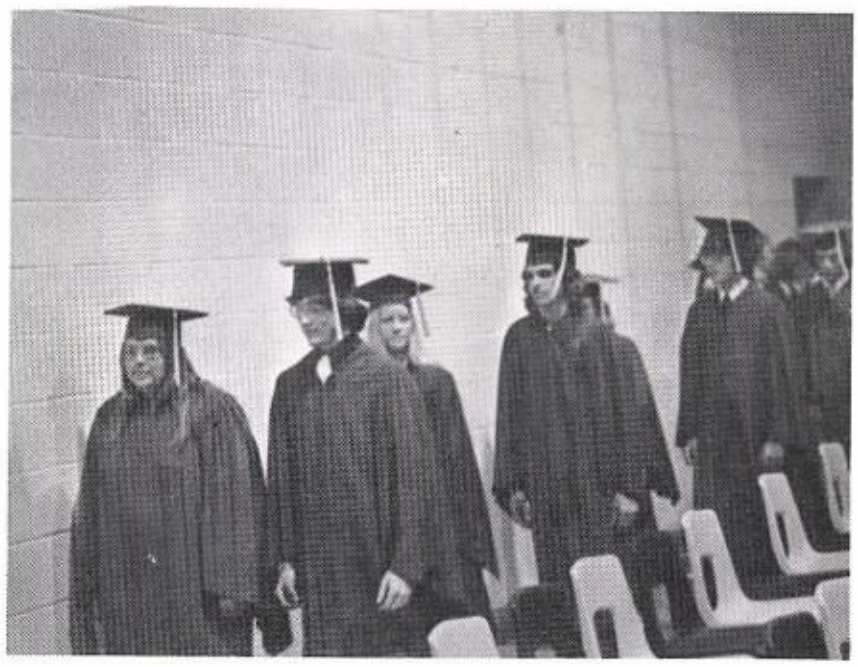


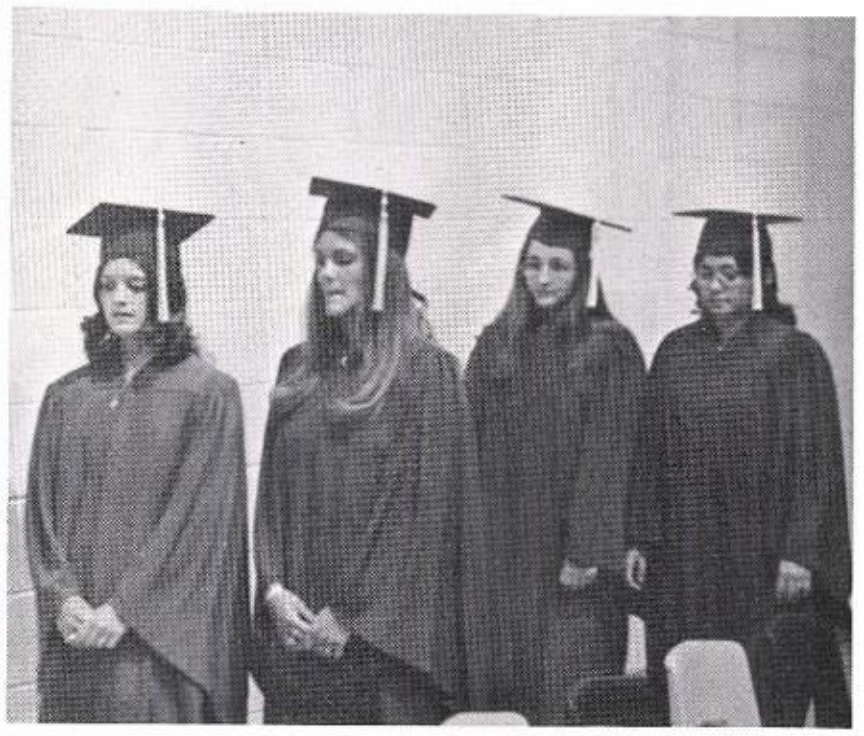


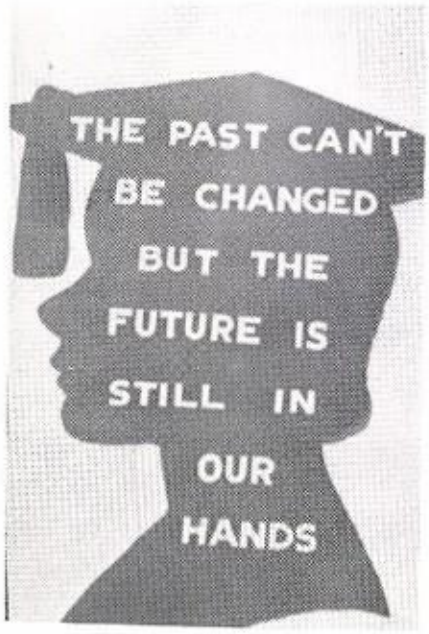
Some students get too nervous before semester tests!

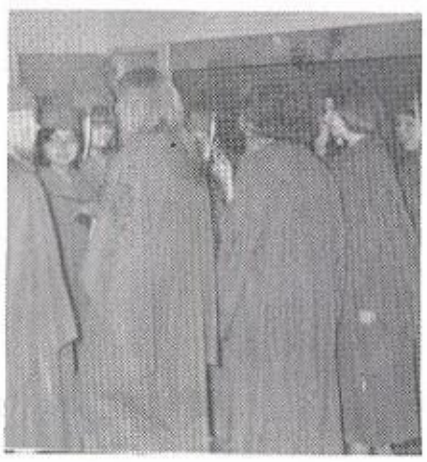
THE LONG ROAD TO SUCCESS IS JUST AHEAD FOR THE CLASS OF '75

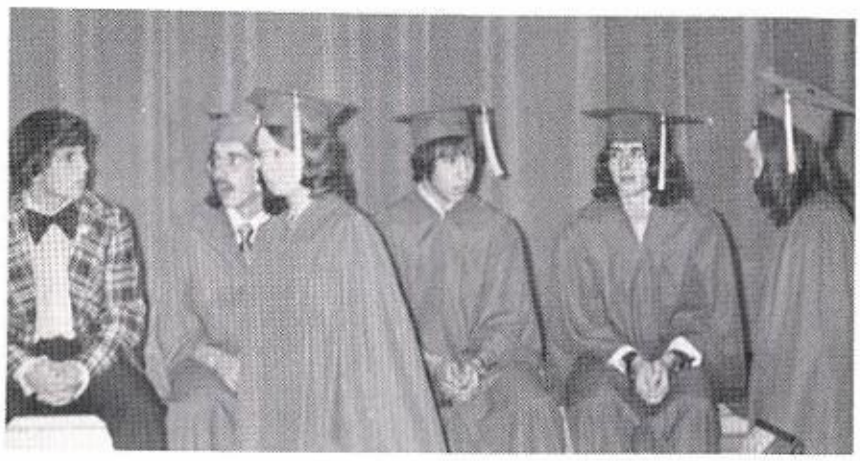




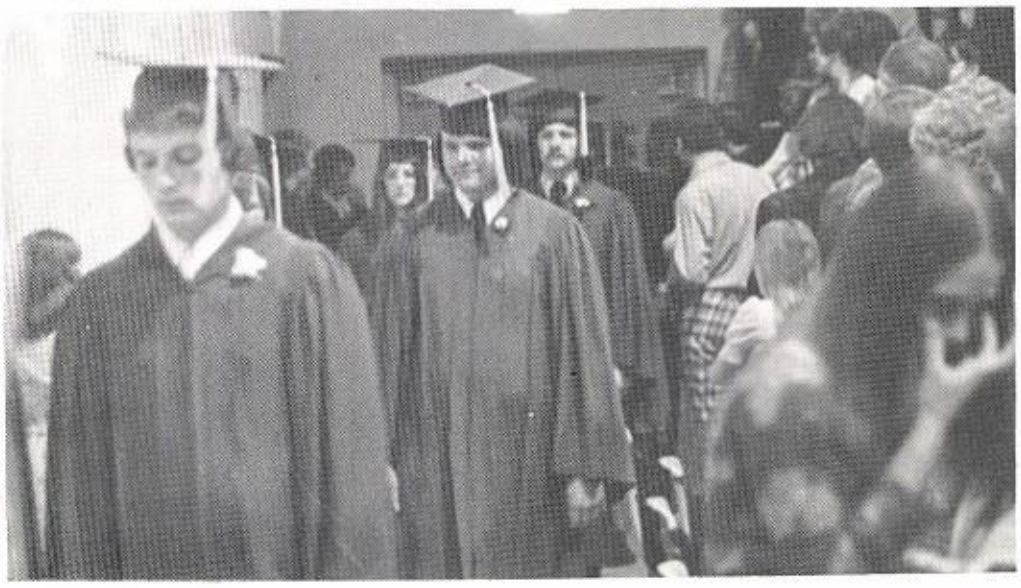


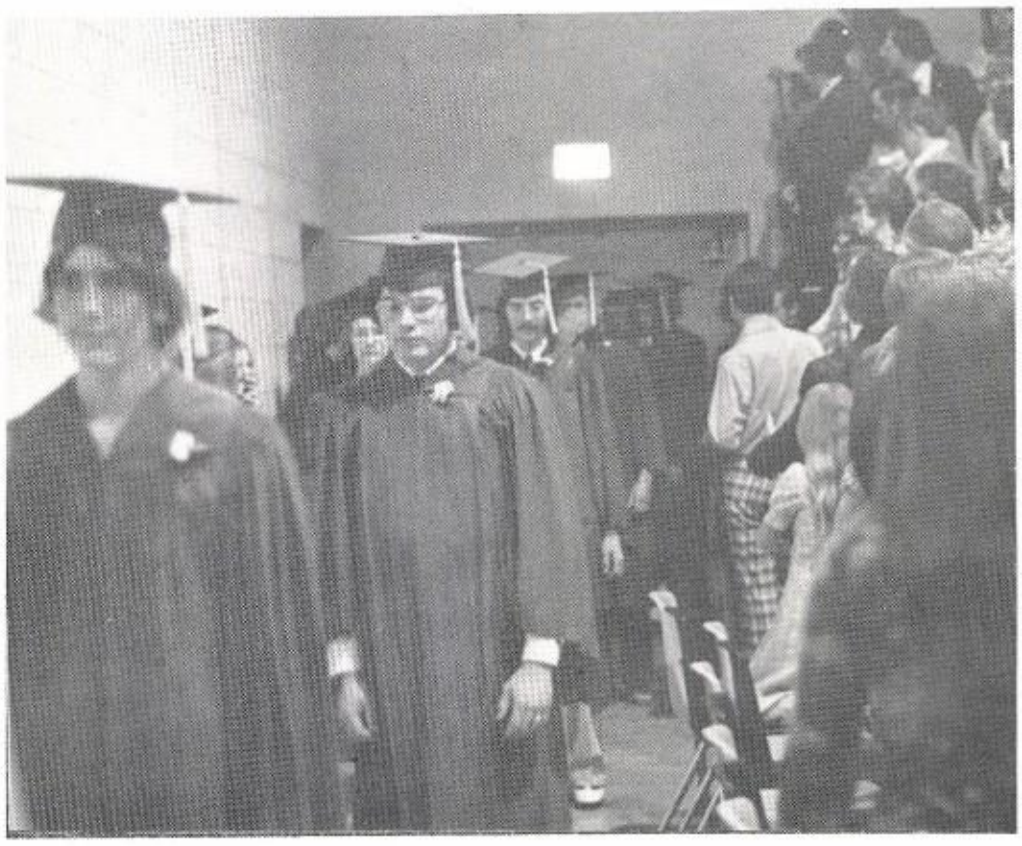


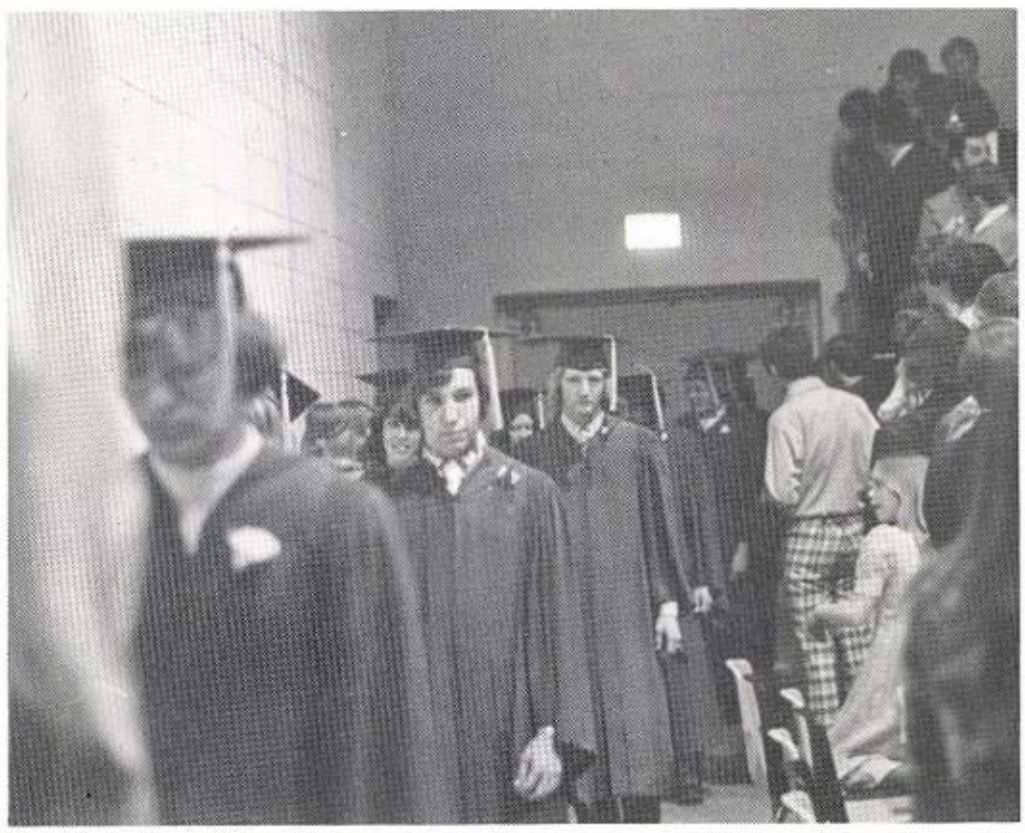




Pictures on this page include: Baccalaureate Speaker, State Auditor Lloyd Smith; Senior class motto and graduating seniors.







The Baccalaureate and Commencement exercises were held on May 11 and 12, 1975. Many of the seniors were happy to be on their own and to strive for better and finer goals. But still there were those who were sad to go, as they thought of all the joys and sorrows they had shared with everyone at EHS. Many of us will always remember these young people, and their great leadership they have shown to underclassmen. We all wish them the best of luck, and hope they will have much success in the years ahead.

BOTH BAND AND VOCAL DID EXCEPTIONALLY WELL AT EACH OF THEIR CONTESTS THIS YEAR.

1/The nation's energy crisis continued throughout the year with gasoline prices soaring to all-time highs. 2/Faced with higher auto operating costs, many students rediscovered the enjoyment of nature. 3/Service station operators in some parts of the country were forced to close due to petroleum shortages. 4/Administration sources reported that a supply of gasoline rationing coupons similar to the above have already been printed in the event rationing becomes necessary. 5/Lagging sales brought about layoff in the auto industry and swamped the unemployment offices nearest to the affected auto assembly plants. 6/After reverting to fossil fuels due to petroleum shortages, power company officials became uneasy when the United Mine Workers threatened to strike and carefully watched their dwindling coal supplies. 7/Protesting higher fuel prices, independent truckers blockaded numerous truck stops across the country. 8/Suspended by a parachute, Evel Knievel and his "rocket cycle" head for the bottom of Snake River Canyon in Idaho after premature opening of the chute aborted his attempt to cross the 1,700-foot wide canyon under steam power. 9/With Daylight Savings Time in effec in the early months of 1974, students found themselves walking to school i the dark. 10/A Turkish jetliner crashed in the woods north of Paris in March killing all of the 345 passengers and crew members aboard. The crash ranks a the single worst airline disaster on record. 11/The once-thriving recreationa vehicle market also suffered due to the energy crisis as evidenced by the hun dreds of unsold motor homes outside of Winnebago's plant in Forest City, Ia 12/Many farmers gave up hope of harvesting a decent corn crop due to ex treme drought conditions in the Midwest and chose instead to chop their cro for silage. An early frost affected the soybean harvest and overall yields o corn and beans were cut drastically. 13/Market prices for hogs topped those o cattle for nearly all of the year. A New York farm organization donated hun dreds of calves to charity rather than destroy them in protest to rising produc tion costs and low market prices. 14/Following an excellent year in 1973, the 1974 agriculture picture was dimmed by forces of inflation and recession

A year to remember . . . .
